stable.

ADHD & FOCUS PRODUCTIVITY PLATFORM

🔒 Investment Opportunity · 2026

CONFIDENTIAL · FOR QUALIFIED BUYERS ONLY

THE PROBLEM

Most productivity apps fail ADHD brains.

366M

ADULTS WORLDWIDE WITH ADHD

The most underserved segment in the productivity market.

$0

APPS BUILT SPECIFICALLY FOR THEM

Existing tools (Todoist, Notion, Asana) overwhelm ADHD users with complexity.

71%

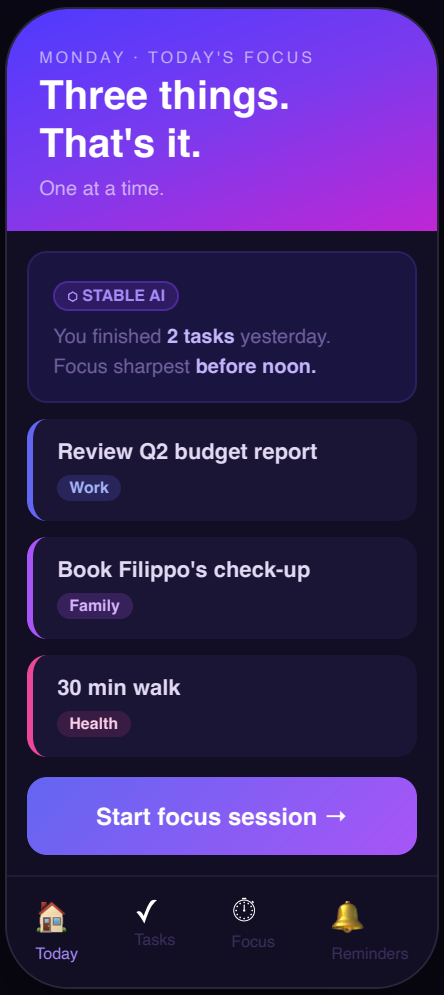
ABANDON GENERAL PRODUCTIVITY APPS WITHIN 30 DAYS

Too many features. Too much friction. Not built for them.

THE SOLUTION

stable. — the focus app built for ADHD adults.

- **Three tasks. That's it.** — radical simplicity that ADHD brains love
- **AI insight card** — personalised daily coaching, no setup
- **Task categories** — Work, Personal, Family, Health, Other
- **Focus sessions** — built-in timer, session history
- **Smart reminders** — snooze, dismiss, recurring
- **Light + dark mode** — professional, polished UI
- **Web + Mobile (Expo)** — works everywhere



MARKET OPPORTUNITY

A $25 billion market with no clear winner.

366M

ADULTS WITH ADHD GLOBALLY

Primary audience. Underserved, high-intent, willing to pay for solutions.

$25B

ADHD MANAGEMENT MARKET BY 2030

Growing 8.4% CAGR. Digital tools are the fastest-growing segment.

$85B

GLOBAL PRODUCTIVITY APP MARKET BY 2027

Broader market that stable. competes in with a focused niche angle.

~10%

OF ADULTS — ADHD OR ADHD-ADJACENT TRAITS

Even non-diagnosed users who struggle with focus are the target.

No dominant player in ADHD-specific productivity. Closest competitors (Focusmate, Inflow) are single-feature or coaching-only. stable. is the only AI-powered, full-stack focus OS for ADHD adults.

PRODUCT STATUS

Built, deployed, ready to scale.

✅ Web App — Live

Next.js 15, deployed on Vercel. Full auth (Clerk), database (Supabase), real-time data (tRPC). All 4 core features complete.

🚧 Mobile App — In Development

React Native (Expo). Shares same design system and API. iOS + Android.

TECH STACK

- Next.js 15 + TypeScript — modern, scalable frontend
- tRPC + React Query — type-safe API layer
- Supabase (PostgreSQL) — managed database, instant scaling
- Clerk — enterprise-grade authentication
- Vercel — zero-config global deployment
- Expo (React Native) — one codebase for iOS + Android
- pnpm monorepo — shared code between web and mobile

MONETISATION MODEL

Four tiers. Freemium to enterprise.

FREE

£0

forever

- ✓ 3 active tasks
- ✓ 1 daily focus session
- ✓ Basic reminders
- ✓ Light mode only

MOST POPULAR

PRO

£7.99

per month · £79.99/year

- ✓ 4 user accounts
- ✓ Family reminders
- ✓ Shared tasks

TEAMS / B2B

£6.99

per user / month · min 5 seats

- ✓ Everything in Pro
- ✓ Team dashboard
- ✓ Admin controls
- ✓ Invoiced billing
- ✓ ADHD-aware onboarding

Annual plan discount of ~16% drives higher LTV and lower churn · App Store + Google Play + direct web billing

REVENUE PROJECTIONS

£960k ARR reachable within 36 months.

MILESTONE	PAID USERS	AVG REVEN / USER
Month 6	200	£7.99 / mo
Year 1	600	£7.99 / mo
Year 2	3,000	£8.50 / mo
Year 3	**10,000**	**£8.99 mo**

Growth assumptions

Organic growth via App Store SEO + ADHD communities (Reddit, TikTok, Instagram). No paid ads assumed in Year 1.

Profit margin at scale

SaaS infrastructure costs ~£400/mo at 10k users. **Gross margin ~95%** at Year 3 revenue.

Low churn expected

ADHD users who find a system that works stick with it. Target: <4% monthly churn once habit-formed (industry avg: 8%).

COMPETITIVE LANDSCAPE

No one owns this space yet.

Todoist / Any.do

General productivity. Complex, feature-heavy. No ADHD focus. No AI coaching. Not mobile-first emotional design.

✕ Not built for ADHD

Focusmate

Body-doubling sessions. Single feature. No task management, no AI, no reminders. Different use case entirely.

✕ Single-feature only

Inflow / Numo

ADHD coaching apps. Heavy on content, light on execution tools. Expensive (£40–£60/mo). No task + focus integration.

✕ Coaching only, costly

stable. — the only AI-powered ADHD focus OS

Full task management + AI daily coaching + focus sessions + reminders. One app. One price. Built for ADHD brains from the ground up.

WHAT YOU'RE BUYING

Everything. Turnkey. Ready to launch.

- ✓ Full source code (pnpm monorepo — web + mobile)
- ✓ Web app deployed on Vercel (production-ready)
- ✓ Supabase database with all schema + migrations
- ✓ Clerk authentication (user management, billing-ready)
- ✓ stable. brand assets — logo, wordmark, colour system
- ✓ Design system + all approved mockups (web + mobile)
- ✓ Expo mobile app codebase (in development, handed over)
- ✓ All 4 core features live: Tasks, Focus, Reminders, Dashboard
- ✓ tRPC API — fully typed, easy to extend
- ✓ Stripe-ready billing integration points (not wired — easy to add)
- ✓ 30-day handover support from original developer
- ✓ All documentation and implementation plans

INVESTMENT ASK

Own a platform with £1M+ ARR potential.

£65,000

Asking price · one-time payment

Why £65k is a bargain

Year 3 revenue projection of £1.08M ARR = 16× return on investment. Equivalent to hiring one mid-level developer for 8 months — except you get a finished product.

Payment options

Full payment · or structured: 50% upfront + 50% at 6-month milestone (£5k MRR). Open to discuss.
